Hobbies

- Soccer : I have a keen interest in playing soccer, which not only keeps me physically active but also enhances my teamwork and communication skills

Muzuvukile Sobhoyise

Summary

A highly motivated and results-oriented individual with a strong work ethic and a commitment to excellence Seeking a challenging position where I can use my skills and experience to make a significant contribution to the company's success.

Education

- High School
Nongeke Senior Secondary
Jul 2018 – Jul 2020
- Diploma in ICT Application Development
Walter Sisulu University
Jul 2021 – Jul 2023

Projects

- Bikie
 - I built a motorbike rental website using HTML5, CSS3, JavaScript and PHP. I built the website for easy and efficient bike bookings. Simplifies the rental process, enhancing the overall customer experience.
- School attendance system
 - I developed a school attendance system using Java and SQL Lite to boost pass rates by ensuring student attendance. Teachers use it for attendance tracking and sending school work seamlessly and the students use it for accessing school work and time tables for different subjects.

Achievements

- ECSA Hackathon Certificate
 - I engaged as a Full Stack Developer in the Engineering Council of South Africa's hackathon. Led both back-end and front-end development, implementing solutions to enhance website functionality. Recognized with a certificate for contributions to the project.
